Creativity Surrounded by Nature

Nestled on the hillside overlooking the wild and rugged Sonoma Coast, this contemporary hideaway has been anointed as Neptune's Nest. Exquisitely designed by local artist, Diana Bundy, the stained-glass entry door of Neptune bearing his trident welcomes you home. Day light transformed by vibrant multicolored glass pours into the entryway while interior light illuminates the entry at night. Windows on every wall bring sweeping vistas into the great room, sunken living room, bedrooms and master suite.

The dreamy curvilinear kitchen island creates an organic hub for cooking and gathering, drinking in the ocean vistas with a handcrafted Sonoma Coast wine. Three bedrooms, two baths, and a luxurious spa adjacent to a professionally equipped gym provide everything needed to restore and rejuvenate body and soul. This historically significant fishing community provides a rich, healthy lifestyle for residents and guests. Bird estuaries, sandy beaches, water sports, art galleries, fine dining and wine tasting are readily available.
